

School Submissions: Ottawa

The University of Ottawa does not require a personal statement; however, you do need to complete this page about your formal education even though you provide that information in other areas.

Also note the link to prerequisites.

Information about CASPer and the ABS is provided, but there is nothing more that you need to do for those in this section.

We contacted the University of Ottawa about the limited space provided to record your pre-reqs information and they recognize that the space is limited. They suggested that applicants indicate course codes and they will then compare it to your transcript. They are looking for course equivalency.

You could provide a link to a course description available online and use a link minimizer such as bit.ly

After checking the description of the Prerequisite Science Courses provided in the "Eligibility Criteria" section, if you are still unsure if your pre-reqs qualify send an e-mail to admissmd@uottawa.ca and provide the admissions assistant with a website link to the institution, faculty, course code, and course description of the courses you wish to be assessed. This information was found under their Frequently Asked Questions section on their website.
