Narrator: A student arranged her own job and is working for a

2

00:00:07,321 --> 00:00:11,078

nonprofit organization. She had heard amazing things about the

3

00:00:11,139 --> 00:00:14,715

organization and was excited to work for them. Once she was

4

00:00:14,775 --> 00:00:18,411

hired, she got acquainted with the small communications team

5

00:00:18,472 --> 00:00:22,169

that she would be working with. During the early weeks of her

6

00:00:22,229 --> 00:00:25,381

working with this organization.

She learned that the

7

00:00:25,441 --> 00:00:29,138

organization posted pictures of
their staff and students that

8

00:00:29,199 --> 00:00:32,835

have recently joined them. Her
team had asked her if she was

9

00:00:32,896 --> 00:00:36,532

interested in participating,
which she agreed. She shared how

10

00:00:36,592 --> 00:00:40,410

awesome it would be to introduce
herself on social media, as it

11

00:00:40,471 --> 00:00:43,501

was currently Eid. Eid is a
worldwide festival and

12

00:00:43,562 --> 00:00:47,016

celebration for the Muslim
community. During the calendar

13

00:00:47,077 --> 00:00:50,834

year, there are two Eid's that
are celebrated by Muslims. When

14

00:00:50,895 --> 00:00:54,410

her picture was posted on
multiple social media platforms,

15

00:00:54,470 --> 00:00:58,046

people were leaving comments
about her hijab, calling her a

16

00:00:58,107 --> 00:01:01,622

terrorist and to go back to her
country. She was upset and

17

00:01:01,682 --> 00:01:05,318

brought this information to the
communications team that she

18

00:01:05,379 --> 00:01:08,955

worked with. Several of her team members were silent on the

19

00:01:09,015 --> 00:01:12,833

matter and her manager told her that it wasn't a big deal, and

20

00:01:12,894 --> 00:01:16,712

that people were just trolling. She was shocked and hurt by her

21

00:01:16,772 --> 00:01:20,409

team's reaction and lack of willingness to do something. She

22

00:01:20,469 --> 00:01:24,348

wasn't sure what to do or where to get support. She chatted with

23

00:01:24,409 --> 00:01:27,924

her close friends on campus about what had transpired and

24

00:01:27,984 --> 00:01:31,742

they suggested she reach out
to RAISE, a student organization

25

00:01:31,802 --> 00:01:35,257

on campus that supports
students that experience racism

26

00:01:35,317 --> 00:01:39,075

and xenophobia. They also shared
that they also may be able to

27

00:01:39,135 --> 00:01:43,014

connect her to people on campus
that could help her through what

28

00:01:43,074 --> 00:01:46,589

she was experiencing at work,
and that it could be a safer

29

00:01:46,650 --> 00:01:50,165

space for her to chat about what
happened. She thanked her

30

00:01:50,226 --> 00:01:53,922

friends for their advice and
decided that she would reach out

31

00:01:53,983 --> 00:01:57,801

to RAISE to see what she could do
and to see where she could get

32

00:01:57,862 --> 00:01:58,650

more support.
